## 1 Section 1

$$x = 4y + \Lambda - \frac{2}{\beta} \tag{1}$$

$$x = 20 + z - \frac{\epsilon}{\frac{3}{\gamma}} \tag{2}$$

$$v = 6y + \Lambda\Gamma - \frac{2}{\beta} \tag{3}$$

$$x + z = 20 \int d^Dx \sqrt{-g_{\mu\nu} \Phi + \Omega} + y - \frac{\epsilon\phi}{\frac{3}{\gamma}} \tag{4}$$
